TO STRIKE A CRUSHING BLOW

The Place of Landing Unknown, But Believed to Be Near Santingo-Great Secreey Maintained by the Authorities-Gen. Shafter to Commanil the First Invasion-Porto Lico Next and Bayana Last.

There is no longer doubt in well-informed milliary and naval circles that Santiago de Cuba, in the land-locked harbor of which Admiral Cervera's fleet, the pride of the Spanish navy, is entrapped, is the main objective point of the aggresgive military movement now under way,

At the War Department no doubt exists at all that this is so. Every official act and move, every change from the mactivity which has characterized the milltary situation since the war began, tends to confirm the now almost general opinion that Santiago is the goal toward

which the American army is moving. Every move made on the chess board of war from this time until the flee; at Santiago is disposed of will be for the purpose of checkmating the enemy by a mastorly stroke at that point.

Spain will then find herself in the predicament of not having a move left, at least for the present, as it is the inten-tion of the Government to deal a crushing defeat with both the land and naval Holding Enck News.

The officials at the War Department who have charge of the expedition are very reticent about the destination of the expedition. None will discuss the details of the plan of campaign determined upon The fact that Santiago is the objective point leaked out in some manner, until almost every petry officer in the big build-

ing knows in a general way that Santiago will be attacked next. The gensorship will be more strongly enforced during the next few hours to enforced during the next few hours to prevent any interesting details from gaining publicity. Adjt. Gen Corbin's effice was closed to visitors at 11:26 o'clock yesterday morning. Newspaper men were particularly requested not to disturb the work of the office by requesting an audience, and the word was soon passed among the correspondents that the adjutant general was in "executive session." Visitors were informed that the office was endeavoring to "catch up with back work." The opinion prevailed, however, that the adjutant general, through whose hand every order passes, was engaged in directing troops to move from various Southern points or rendezvous preparatory to embarking.

No Chances to Be Taken.

No Chances to Be Taken.

The capture of Santiago has been underialies for a twofold purpose; the anmilliation or capture of Cervera's fleet, and the establishment of a seat of goveriment for the Cubans. No chances will be taken. In order to accomplish the task the army will co-operate with the Navy. The management of the army end of the movement will devolve upon Maj. Gen. Shafter and the 20,000 regulars under his command at Tampa. Gen. Miles is expected to arrive at Tampa to-day in time to confer with Gen. Shafter before the last of the expedition has been embarked. He will probably remain at Tampa pending the starting of the second expedition. Gen. Shafter will conduct the operations against Santlago from ond expedition. Gen. Shafter will conduct the operations against Santiago from the field. Gen. Miles will study the general Cuban situation in detail while in Florida, with a view to taking the lead of the regular Cuban army of invasion. Troops will be ordered from Chickmangs to take the places of those who have embarked. Within a few days a general exodus of troops is expected to tape place at Camp Thomas. Gen. Miles will inspect them at Tampa.

The greater portion of Gen. Shafter's army are regulars. Several of the best divided volunteer regiments, particularly the Seventy-first New York and the Second Massachusetts, have probably been

the troops. The Santiago, Saratoga, Vigilancia, Sequaranca, Yucatau, Mattewan, Berkehire, Iroquois, Concho, Leona, San Marcos, and Florida will carry about 1.600 men each. The Seneca, City of Washingtoo, Rio Grande, Cherokee, Alamo, and a number of other transports of the same type will each accommodate 800 troops. Many smaller steamers like the Gossie and the famous Olivette, with a carrying apacity of 300 men each, will accompany

this portion of the Government's plan having thus far remained a secret. It is thought that it will be on the south coast of Cuba, although the topography of the country in Santiago de Cuba province is such that marching will be difficult. The lifes of Gen. Shafter is to place his army behind Santiago as soon as possible. Celer-ity of movement and action and a speedy advance upon the city after a landing has been effected are particularly desir-able. The impression is, therefore, very strongly held that a landing spot has been isoloted near Santiago, probably fifteen to twenty miles to the eastward on the south coast. The insurgent forces control the province, and with their assistance the invading American army is not ex-pected to meet with many difficulties in

The march upon Santiago will be made as soon as the siege guns and all the nec-essary munitions have been put in shape for communication across the country.
It will take at least a week for the transports to reach Santingo province.
No fighting is expected for a week, unless Corvern ventures from the harbor in the meantime to join issue with the fleet of Commodore Schley.

Plan of Attnck Santiago is surrounded by a natural wall of high bluffs and hills. Stege guns will be mounted on the summit of these fleet, in order to force the enemy to retire from Santiago harbor and give buttle to Schley, who will be in waiting at the entrance. If Cervera remains within the entrance. If Cervera remains within the barbor it is difficult to see how his vessels will avoid certain destruction from the siege gans. They will be mounted too high for the elevation of the gans on his ships. Resistance against Gen. Shafter will be out of the question as far as the naval gans are concerned.

Gen. Binneo will not be able to aid Cervera. He cannot hurry troops the entire length of the island in time and probably would not leave Havana unprotect.

The province is now controlled by them, and with Santlago once taken, and the outlying Spaulsh forts sarrisoned and patroled, the Cubans will be in possession of one of the best cities in Cuba for use as a capital.

Pollowing the Santlago campaign, Porto Rico will be invested. Havana will be attacked last.

Prof. Jules Laborde's Marvelous French Preparation for Lost Manhood.

A FULL FIVE DAYS' TREATMENT

Every person whi is a sufferer from nervous diseases should write the Von Mohl Co., Cincinnati, O., at once and accept their offer of a five days trial treatment free of charge. This is no C. O. D. or DEPOSIT scheme, but a liberal proposition made to unfortunate suffered by this large standing, and the patient feels the benefits of the first day's treatment. In five days the medicine sent free will make ferers by this long-established concern, which is the largest importer of specifics for nervous and sexual diseases in the world. The Von Mohl Co. has the sole world. The Von Mohl Co. has the sole American rights for Prof. Laborde's French preparation of "Calthos," the only remedy known to advanced medical selence that will positively cure nervous debility. This remedy has for years been used as a specific in the French and German armies, and since its introduction into the United States has cured many thousands of sufferers, and the remarkable success of the remedy in Europe has been repeated in this country.

In order to place this wonderful treatment in the hands of every person who suffers the mental and physical anguish of sexual weakness, the Von Mohl Co. has decided to send a free trial treatment to all who write at once. The remedy is sent by mail in a plain peckage, and there is no publicity in receiving it or taking it. Accompanying the medicine there is a full treatise in plain language for you to read. Take the medicine privately with perfect safety and a sure cure is guaranteed.

days the medicine sent free will make you feel like a new man.

The Von Mohl Ca, often receives the most astonishing testimonials from persons who have taken only five days' treatment. They have thousands of testimonials from those who have been permanently cured after having been given up by doctors, misled and ruined in health by disreputable medical schemers, and when they had given up their last hope for health and happiness. No seasible person will permit his name to be used for a testimonial as an admission that he had any of the diseases for which the preparation of "Calthos" is a specific cure. Some tresponsible advertisers are using "made-up" testimonials, but the Von Mohl Co, invariably declines to make public the names or correspondence of any natients who have been cured to make public the names or correspondent ence of any patients who have been cured by "Calthos

Five days' treatment will be placed in your hands free of cost, and you are earnessly urged for your own sake to send for it without delay. Write today and send your address. It is not necessary to give embarrassing details of your symptoms. The book accompanying the five days' treatment will enable you to take the medicine in private and treat yourself successfully at home. It costs nothing to try this remedy. It may cost you a great deal to let this offer so cost you a great deal to let this offer go by. Write today. Address THE VON MOHL.CO., 28 B. Cincinnati, Ohio. (Sole American agents and importers

LIVELY ROW IN PROSPECT.

Virginians Object to Serving Under

Officers From Other States. The beginning of a bad disagreement between the adjutant general's office and the people and congressmen of Virginia, and other nearby States, has been made. The trouble is, in brief, that Virginia, especially, says that the office is discriminating against ber in the matter of officers for the regiment of immunes that is being recruited in this vicinity.

Senators Daniel and Martin called on Secretary Aiger yesterday yesterday and made a strong protest.

The adjutant general's office is recruiting the regiment of immunes from the District of Columbia, Virginia, West Virginia, North Carolina, and Maryland. Col. James S. Pettit, of the office, is doing the recruiting. The regiment is filling up well and it is said that there will be no trouble in raising the necessary men. Col. Petiit has already begun to choose his officers. The curious fact developes, however, the Virginians say, that while Virginia has

he is choosing his officers for their military experience and their familiarity with army life in the South. Nearly all the officers chosen so far are familiar with yellow fever problems and thus are es-

pecially fitted, he says.

He says he is not conscious of having shown any particular favoritism.

The judge's home is in Jackson, Tenn., but he has for some months been detained in Washington by business. His son is only fifteen years old, but a very determined lad, and when the war tocsin sounded wrote his father that although he preferred to have his consent, he was determined to get to the front with the boys of the Volunteer State. The consent was conquered and Henry, son of Henry, a four years' rebel under the Stars and Bars, is a sworn volunteer to fight for the Stars and Stripes whenever they un-

War Dispatches Gratify the Financial Semiment.

The Bank of Spain Notes Reported at a Decided Discount,

New York, May 31.-The confirmation of the rumors in regard to the location of the Spanish fleet was naturally highly gratifying to financial sentiment today. As tending to bring the war with Spain to an earlier conclusion, the formation was really the sole and sufficient explanation of the morning's rapid advance in prices. At the same time the day was not otherwise devoid of incidents, even if they were overshadowed by the dominant in-

A number of highly satisfactory statements of rallway carnings, including the

the glowing reports from the grain belt

The notes of the Bank of Spain were reported at a decided discount, and next to the operations of our forces nothing will tend to bring the war to an end more than the state of the Spanish finances.

The grangers were conspicuous in the day's market and their prominence was furthered by the anticipations regarding the extra dividend which it is expected will be deciared upon Rock Island tomor-row. Camp Alger is to have a money order and stamp office. First Assistant Postmuster General Heath visited the camp York took up the baying as soon as the York took up the baying as soon as the sure bottling of Cervera, of which news was received over the holidays, was the main reason for the advance. The results which must follow this victory for the United States are not hard to see. Already there is take of Spain suing for peace, and this time it is not premature probably. Spain cannot hold out long and will not care to when the chance for even one victory has passed utterly. There was the chance of a victory for her as long as the fleet was at large, and wille there was the slightest hope the Spanish officials earnessly worked for it. while there was the sugmest nope the Spanish officials earnessly worked for it knowing that the settlement of the war with the people would be much easier if there was anything like a victory against all the defeat. Now, however, it is said that the Spanish officials have given up entirely and only desire peace at any

> It may be said with a good deal of truth now that the only fear of the Unit-ed States is that the war will be ended too soon. If Santiago is taken Spain may sue for peace. She may hasten to sur-render before Perto Rico is taken. But the United States would not then as some reads same to think be forced to sure year. the United States would not then as some people seem to think be forced to give up Porto Rice. Surrender by Spain would mean complete surrender or the United States would not accept it. President Mc-Kinley would say to Spain that there must be no conditions except such as might be fixed by the United States. These conditions would undoubtedly be the surrender of Porto Rico as well as the Philippines and Cuba. This, I am told on excellent authority.

> This talk of peace negotiations and the possibility at least that the United States may have fought the war in a few weeks without any loss of life comparatively, and with no loss of property in the least commensurate with the gains of territory is the best possible reason to make a buil market. If the war ends in this way it will be the first on record in the whole market. If the war ends in this way it will be the first on record in the whole world's history with such a one-sided loss. However, while this is at least a possible ending to the war, there is also to be taken into consideration the chance that the United States may lose many men in Cuba, and that Spain may refuse to surrender for months to come. This will not prevent a good buil market, however, while the present good fortune of the United States continues.

The Rock Island dividend will be announced today. It may safely be predicted that there will be a 5 per cent. cash dividend and also a scrip. The earnings of the Rock Island have been excellent and everything else in the prospect of the road is as fine as it could be. Rock Island led the market yesterday with an advance of a point and a quarter and the net advance was three quarters. There is no intrinsic reason why there should be any further advance in the price of the stock. The present level is high enough for the dividend. But the temper of the market will undoubtedly be good for a few points more rise. It would be foolhardy to sell except for very short ventures on bulges and buying might be advantageous at almost any time.

The carnings of the Norfolk and West ern for the third week of May increased

the unpaid balance of 5 per cent for the fiscal year ending June 30, 1897, on its preferred stock. A dividend on the common stock is expected in August, There should be an advance at least a speculative one on this showing.

The strength of Western Union yesterday was noticeable, especially because the stock has been slow to move so far with the remainder of the market. The com-pany kas been doing a tremendous busi-ness since the war begun and a large per cent of it has been profit.

Dow, Jones & Co. say that the indications are that this will be thebest year in the history of Texas Pacific.
